

**Samples of few Radiological Reports Concerning few Fluorosis affected People of village Palsipani,
Block - Konna**

Name - Kamla Hark

Age - 30 10th
 Vill. Palsipani Pampa

Findings LS spine
 shows increased bone

density spine in neck,
 area of vertebral bodies are
 obliterated. Fluorosis

Impress. Fluorosis
 Dr. S. S. S. S. S.

Dr. UMESH CH. MOHAPATRA, M.D.
 Consultant Radiologist
 Regd. No. 3240

Name Padmini Harkal

Age - 27 10th
 Vill. Palsipani Nuapana

Findings LS spine
 shows distended

increased bone density
 of body of L spine
 and pelvis by

Impress. Fluorosis
 Dr. S. S. S. S. S.

Dr. UMESH CH. MOHAPATRA, M.D.
 Consultant Radiologist
 Regd. No. 3240

Name - Sena Devi Hanpal

Age - 40 yr

Vill. Palaspai Nuafar

X-ray haki side knee

8hms

to spread in cream bone

density with ossification

of manubrium - T end in an area near band

Impression - Fluorosis

Dr. Umesh Ch. Mohapatra

Dr. UMESH CH. MOHAPATRA, MD
Consultant Radiologist
Regd. No. 3240

Name - Sri Samban Hanga

Age - 41 Sept 1976

Vill. Palaspai Nuafar

X-ray L.S spine

8hms. to spread in cream

bone density in L.S spine

bone of pelvis and L.S spine

Impression - Fluorosis

Dr. Umesh Ch. Mohapatra

Dr. UMESH CH. MOHAPATRA, MD
Consultant Radiologist
Regd. No. 3240

Name: Sambu Sahar

Age: 35 yrs

W/L: Palsipani Nuapam

X-ray Lumb P/L.

Dillman bone density seen in upper ribs
Scapula clavicle.
Cervical base thoracic spine

Impress - Fluorosis

[Signature]
21/11/86

Dr. UMESH CH. MOHAPATRA, MD
Consultant Radiologist
Regd. No. 3240

Name: Satmahi Pethra.

Age: 35 yrs

W/L: Palsipani Nuapam

X-ray Lumbosacral spine

Spine of the lumbosacral spine although appears normal - lower ribs both LA and RA ribs shows increased density and irregularity of heads

Impress - Fluorosis

Consultant Radiologist
Regd. No. 3240

Ganga ram Bedarra
Age. 40 yr 10m
Vill. Palsipuri Nuvempara

Xray spine (LS)
bones spine and
hip bones
increased bone density

Impression - Fluorosis

Dr. D. S. Patil
20/11/76

Dr. UMESH CH. MOHAPATRA, MD
Consultant Radiologist
Regd. No. 3240

Name: Sri Krav Harpal
Age 10 yr. 10m
Vill. Palsipuri St. Nuvempara

Xray ankle ft AP and lateral
except calcaneal epiphysis
bones ankle ft
appeared normal, increased
bone density seen in
calcaneal epiphysis and some
distal area the accretion
is increased

Dr. D. S. Patil
20/11/76

Dr. UMESH CH. MOHAPATRA, MD
Consultant Radiologist
Regd. No. 3240

Name - Rajadhar Harpal
Age: 50 yrs male - Will Palsipani
DST Mumbai.

X-ray of spine AP
and PA

- Shows
- ① Diffused increased bone density pelvis bone, sacrum and spine
 - ② Lower ribs shows irregularity in bone body

Improves in - Osteosclerosis due to I us for neck

Ra. Sankar

Dr. UMESH CH. MOHAPATRA, MD
Consultant Radiologist
Regd. No. 3240

Name Pusp Harpal
Age 17 yrs
Will. Palsipani Mumbai

X-ray left knee it shows irregular density around bone

Improves - Chondri
